

The SoNo Switch Tower Museum

~Celebrating 20 Years~

Our many building maintenance projects are making an impact – just a few of our recent improvements are:

- *Updated 3rd Floor “Vintage” Lighting*
- *Trackside Lighting for Enhanced Virtual Railfan Viewing*
- *Newly Installed Train Location Monitor*
- *Updated Signal Display*
- *Signal Machine Rod Reconnection for Enhanced Visitor Experience*

...and MORE!

Funded by Member and Visitor donations and Gift Shop sales - and enabled by the hard work of our Volunteers - our projects keep our Museum enjoyable by the over 2,000 visitors we welcome each year!

Now it's time for Windows!

We need to replace 12 – 18 windows on the 2nd and 3rd floors. Each cost approximately \$425. We're hoping YOU can be part of the SS44 Window Replacement Project! Please consider a donation to keep our Tower in great shape and enjoyable for all!

THANK YOU!

Here's my donation to help replace SS44's windows!
